NUMBER OF EMPLOYEES

STATEMENT BY FIRM Coplon Associates has provided landscape architecture and planning services in Maine since 1987. CA has the capability of addressing a diversity of project types ranging from large-scale land and institutional master planning to detailed site design. The design sensitivity that characterizes Coplon Associates' work is complemented by the firm's practical understanding of the natural systems, regulatory processes and financial considerations that influence project implementation. The breadth of Coplon Associates' portfolio reflects the firm's ability to address the needs of a diverse clientele in projects located throughout the eastern United States. Coplon Associates has provided planning and design services for local, state and federal agencies, institutions, the development community, corporations, conservation organizations, associated design professionals, and individuals.
